

Name:

WALK IN THEIR SHOES SUMMATIVE ASSESSMENT

Criterion D: Evaluating

- i. D1 — Testing and Evaluating; measure the success of your shoes through out the day
- ii. D2 — How can your shoes be improved? Think about the possible improvements that would help your shoe design
- iii. D3 — How did designing & building your shoes affect you?

Level	MYP Criteria	Task Specific Criteria
1-2	<ol style="list-style-type: none">i. defines a testing method, which is used to measure the success of the solutionii. states the success of the solution.	The booklet was completed in a limited way by explaining very little of your day wearing your own shoes. Many of the answers are incomplete.
3-4	<ol style="list-style-type: none">i. states the success of the solution against the design specification based on the results of one relevant testii. states one way in which the solution could be improvediii. states one way in which the solution can impact the client/target audience.	<p>The booklet was completed in a satisfactorily way by explaining a limited amount of your day wearing your own shoes with some effort.</p> <ul style="list-style-type: none"><input type="checkbox"/> States one success of your shoes based on only one of the product testing methods — Field test or Performance Test<input type="checkbox"/> Mentions only one solution to improve the shoes in Aesthetics, Performance, comfort & safety<input type="checkbox"/> Did not use the Shoe Repair Station<input type="checkbox"/> Mentions one detail how the building of the shoes affected you.
5-6	<ol style="list-style-type: none">i. states the success of the solution against the design specification based on relevant product testingii. outlines one way in which the solution could be improvediii. outlines the impact of the solution on the client/target audience, with guidance.	<p>The booklet was completed in a accurate way by explaining your day wearing your own shoes in detail.</p> <ul style="list-style-type: none"><input type="checkbox"/> States the success of your shoes based both authentic product testing — the Field test and Performance Test<input type="checkbox"/> Outlines one solution to improve the shoes for each — Aesthetics, Performance, comfort & safety<input type="checkbox"/> Mentions use of Shoe Repair Station<input type="checkbox"/> Described one detail how the building of the shoes affected you for each D3 question.
7-8	<ol style="list-style-type: none">i. outlines the success of the solution against the design specification based on authentic product testingii. outlines how the solution could be improvediii. outlines the impact of the solution on the client/target audience.	<p>The booklet was completed in an effective and accurate by clearly explaining your day wearing your own shoes in full detail;</p> <ul style="list-style-type: none"><input type="checkbox"/> Outline the success of your shoes based on authentic product testing — the Field test and Performance Test<input type="checkbox"/> Outlines 2 improvements or ideas of your shoes for each — Aesthetics, Performance, comfort & safety<input type="checkbox"/> Described the detailed use of Shoe Repair Station<input type="checkbox"/> Described in detail how the building of the shoes affected you for both D3 questions
